Main Contractor:
Westfield Town Shopping
Centre UK Ltd

Client:
Westfield Town Shopping
Centres

Scope of Works:
Drylining

Ceiling

Glass reinforced Gypsum
precast columns

Bulk head features

The £340 million Eagle Shopping Centre opened on the 9th October 2007, presenting a new dynamic mix of fashion, food and leisure in the heart of the City of Derby.

The new centre provides four themed malls, over two retail levels anchored by Marks & Spencer and Debenhams. The introduction of more than 100 new shops has brought a vibrant mix of national and local fashion and lifestyle brands. Westfield Derby incorporates leading retailers Zara, Bershka, Topshop, Next, Monsoon, New Look, Dorothy Perkins, River Island and H&M.

Clark & Fenn, working closely with the design and construction team, were awarded the contract to supply and install the drylining and ceiling together with the glass reinforced gypsum precast columns and bulk head features throughout the development.

Design drawings were completed in-house based upon the conceptual schemes provided by the architects. Considerable time was spent ensuring compliance with the scheme while also

bringing our own experience and skills to the process. Offering, where necessary, suggestions of performance engineering solutions to speed up the construction programme using our extensive experience of shopping centre construction gained by working for many years in this market sector.
